

Tiago Gonçalves

Lead Product Designer

me@tiagogoncalv.es +351 962 192 469 Porto, Portugal linkedin.com/in/tiagovianagoncalves

PROFESSIONAL SUMMARY

Lead product designer with **12+ years** designing and scaling digital products across healthcare, fintech and legal tech. Built design systems from scratch, grew design teams, and ran **AI-assisted** workflows from early user research through to production UI.

SKILLS

Product design, Design leadership, Design systems, User research, Prototyping, Figma, AI-assisted design, Claude Code, Design strategy, Visual design, Illustration

WORK EXPERIENCE

Lead Product Designer • Intaker (AI-powered CRM for law firms) • *Jul 2025 - Present*

- Redesigned the entire product and company website on a new design system, improving usability across every feature
- Changed how the design team works by introducing a full-cycle ownership model: designers now run their own research, build AI prototypes and pitch to leadership
- Prototype and iterate directly with AI tools, working closely with engineering to move from idea to working product quickly

Senior Product Designer • Paytient (Fintech/healthcare) • *Nov 2021 - Jun 2025*

- First full-time product designer, leading design across the employee mobile and web apps and the employer dashboard through a period of major growth: 100k to 1M eligible users, with monthly card payments up 6x
- Created Paytient's design system, taking it from a basic MVP to the foundation of the whole product, and set up the Figma-based design organisation and workflow
- Grew the design team from 2 to 5 designers, ran user research and user interviews, and led cross-functional workshops to shape product direction

Senior Product Designer • knok Healthcare (Telehealth platform) • *Jul 2020 - Oct 2021*

- Led the design effort across web products for patients, doctors and hospital administrators
- Created and implemented the knok Design System, still used across multiple products today
- As knok's first full-time designer, replaced a patchwork of freelance work with one consistent visual language, and designed the booking, checkout and virtual waiting room flows from scratch

Product Designer • Nagarro Product Studio (Product consultancy) • *May 2018 - Jun 2020*

- Designed digital products and pitches for clients including Sony, BMW, Verizon and RMS
- Built Radius, RMS' design system and illustration library, with a three-designer team: shipped 5+ products in under a year, cut prototyping time by 30%, and saved ~\$50k per release on UI clean-up
- Took Sony's family tracking app from concept to interactive prototype in three weeks, with a two-person team, and pitched it to Sony in San Francisco

UX Designer • Jumia (E-commerce) • *Sep 2017 - Apr 2018*

- Designed web and mobile products and created Jumia's global style guide and component library, used across several products
- Designed Jumia One (iOS and Android), a single app for buying airtime, paying bills and reaching every Jumia service, which later became JumiaPay

UX/Visual Designer • 7egend (Design agency) • *Mar 2014 - Aug 2017*

- Designed mobile apps (iOS, Android, Windows), websites, TV and wearable apps, and interactive experiences
- Designed the FC Porto mobile app, winner of Best Sports/Culture App at the ACEPI Navegantes XXI Awards 2017
- Spoke at Microsoft Tech Refresh 2015 with the talk "A fresh look into Windows 10 UI/UX Design"

AWARDS

- Figma Community Awards Finalist *2022*
- Best Sports/Culture App at the ACEPI Navegantes XXI *2017*

EDUCATION

Bachelor in **Graphic Design** • IPCA - Escola Superior de Design • *2009 - 2013*
